Geometric Sequences: A sequence of terms that have a common _____ between them. Formula: $a_n = a_1(r)^{n-1}$ where a_1 is the first number in the sequence and r is the common ratio. Are the following sequences, arithmetic, geometric, or neither? If they are arithmetic, state the value of d . If they are geometric, state r . 1. 6, 12, 18, 24,
