Ancient Middle Niger: Urbanism and the Self-organizing ...

The cities of Middle Niger, although the oldest in sub-Saharan Africa, are the most recently 'discovered' of all the ancient urban civilisations known to archaeology. Emerging in the first millennium BC, they were marked by a unique non-nucleated, clustered city plan and by the absence of kingship or centralised state-focused power.

Ancient Middle Niger: Urbanism and the Self-Organizing ...

For McIntosh, ancient urbanism in the Middle Niger Delta was of a different species, with nondespotic "self-identifying communities" of diverse corporate groups in no need of a king or "other appurtenances of the state-based town" (p. 43).

Roderick J. McIntosh. Ancient Middle Niger: Urbanism and ...

Based on decades of study in the Middle Niger region, McIntosh (2005) argues for a model of heterarchical urbanism in which cities and hinterlands are complex and self-organizing as opposed to ...

Ancient Middle Niger: Urbanism and the Self-Organizing ...

Jenne-jeno "discovered" to the world It can be said, without much fear of contradiction, that the ancient Middle Niger is the most recent of the world's major urban civilizations to be discovered. Sadly, this discovery only dawned upon the archaeological world in the late 1970s.

Ancient Middle Niger by Roderick J. McIntosh

Ancient Middle Niger explores the emergence of these cities in the first millennium B.C. and the evolution of their hinterlands from the perspective of the self-organized landscape. Cities appeared in a series of profound transforms to the human-land relations and this book illustrates how each transform was a leap in complexity.
