Creative Flash Photography: Great Lighting with Small ...

If the ambient light in the room is an unusual color, such as blue, try using daylight colored light (flash without a gel, temperature set to 5500K) to more naturally light the subjects in the scene. Otherwise, if you use a gel and set the temperature to 3200K, the subjects will look yellow or orange, and after adjusting the white balance in post, the blue lights will turn a deeper shade of blue.

Beginner's Guide to Flash Photography - Tips, Tricks and ...

A bounce flash is a great way to light a subject. especially if you’re looking for a soft-lighting exposure. Harsh light isn’t the best fit for all types of photography. Perhaps the subject in front of your camera has a light color range. With bounce flash, you retain the details within it.

This year’s 5DayDeal includes excellent classes on flash photography and understanding light. Here’s a quick review of three of my favorite courses. Magic With Any Light — Jerry Ghionis. Jerry has an easy way of explaining lighting — especially natural lighting — and adds extra helpful information on how he is able to capture the shot.

Great lighting classes with 5DayDeal | Photofocus

Light trails are a great way to utilise a long exposure. These are mainly captured during night photography, as the scene has much less light. This allows you to keep your shutter open for longer. You can capture these in the daytime too, but you will need extra equipment, such as a neutral density filter.

15 Great Ideas for Creative Light Trails Photography

My daughter and husband are at the top of my list!! Some of my other favorites include good friends, elegant handcrafted things, purposely creating art, reading 5 books at the same time, gardening, fresh flowers in my house, cooking (and eating great food, especially the eating part), riding horses, and learning new things.
