45mb Jp Holman Heat Transfer 9th Edition

Like many kinds of homespun advice, this is bad advice. All types of heat transfer; conduction, convection, and radiation vary directly with area. The surface area of the head is much less than that of the other portion of the body and thus will lose less heat. This may be shown experimentally by comparing exposure

Heat transfer - Philadelphia University

Write the Fourier's law of heat conduction equation. Here, is the rate of heat transfer, A is the cross-sectional area normal to the direction of heat flow, k is the thermal conductivity, is the temperature difference, and is the thickness of the material. The minus sign indicates, heat flow will be in the direction of decreasing temperature.
