Improving Reading Skills Through Effective Reading Strategies

Remember you're here reading the journal article for one reason: to dig out the information you need, and move on. To scan the journal article, look through all of the article's headings to get a general idea of what will be discussed in each section. Below is a list of the common sections you'll expect in a journal article.

How to Read a Journal Article in 7 Steps (2020)

Journal articles usually have a quite rigid structure that is determined by the particular journal in which they appear and by the type of research being reported; this makes extracting information from them sometimes easier than from less rigid text types. The reporting of empirical research will mostly follow the format of abstract, introduction, methods, results, discussion, conclusion.
