The authors describe and account for some remarkable parallelisms in the linguistic construction of utterances with which people express themselves in different languages and cultures. A motive for these parallels is isolated - politeness, broadly defined to include both polite friendliness and polite formality - and a universal model is constructed outlining the abstract principles underlying polite usages.

## **Stephen Levinson - Wikipedia**

Japanese is perhaps the most widely known example of a language that encodes politeness at its very core. Japanese has two main levels of politeness, one for intimate acquaintances, family and friends, and one for other groups, and verb morphology reflects these levels. Besides that, some verbs have special hyper-polite suppletive forms.

## **Politeness - Wikipedia**

politeness are involved in what belongs to either of these linguistic subfields for politeness is specifically concerned with language use that is connected with pragmatics-and it is a phenomenon...
