Standard & Poor's is a private, independent source of financial market intelligence for investors and other market participants. Its products include indexes, risk evaluation, investment research and data, and credit ratings on public companies, financial institutions, insurance firms, sovereign nations, municipal and state governments, and many non-profit organizations such as hospitals and universities.

Standard & Poors financial definition of Standard & Poors

Standard & Poors. A financial services company that offers many different types of products. It is perhaps best known for the S&P 500 American stock index and other indices in four different countries. It also serves as a credit ratings agency and a research firm. It is one of only 10 firms the SEC recognizes as a credit rating agency, though, like other CRAs, its methods have been subject to criticism.
