Dr. Gagan has written a powerful book exploring the worlds of shamanism and psychology and the bridges between them. The shamanic tradition dates back at least 30,000 years. Like psychology, its intent is to heal and alleviate suffering. Unlike psychology, shamanism focuses on the soul of the individual.

Amazon.com: Journeying: Where Shamanism and Psychology ...

Shamanism and Psychology Many believe that shamanic healing is a psychological one. The cure of disorders and diseases as well as journeys and rituals to gain power or to return in balance with the Universe are considered to just have a psychological basis.

Shamanism and Psychology

You may enjoy reading the new book published by the Society for Shamanic Practitioners, Spirited Medicine: Shamanism in Contemporary Healthcare, too. Blessings! Reply to Evelyn Rysdyk

When Shamanism Meets Western Medicine | Psychology Today

Shamans, including medicine men, mediums, and the prophets of religious movements, recur across human societies. Shamanism also existed among nearly all documented hunter-gatherers, likely characterized the religious lives of many ancestral humans, and is often proposed by anthropologists to be the "first profession," representing the first institutionalized division of labor beyond age ...

The cultural evolution of shamanism | Behavioral and Brain ...

Someone studying psychology would have different needs than a theologian, who would have very different needs than someone who wants to practice shamanic techniques. If you are a scholar, Mircea Eliade's "Shamanism: Archaic Techniques of Ecstasy" is still in print and is still considered THE classic text.

What are the best books about shamanism? - Quora

Interface between Shamanism and psychiatry Shamanic methods of working with dreams and being conscious and awake while dreaming open new doors in psychological research into the nature and history of consciousness. Shamans are often compared to psychologists, searching the unconscious for hidden sources of suffering and lost fragments of self.
