100

The TRS-80 Model 100 is a portable computer introduced in 1983. It is one of the first notebook-style computers, featuring a keyboard and liquid crystal display, in a battery-powered package roughly the size and shape of a notepad or large book. It was made by Kyocera, and originally sold in Japan as the Kyotronic 85. Although

Bitchin100

The TRS-80 Model 102 isn't a speedy machine by any means. But it has an awesome keyboard and runs on four double A batteries. I tried playing the original code after converting it. So slow. You couldn't recognize the tune. So I wrote a "compiler" that reads an ABC music text file and outputs a file with the BASIC sound
