A failed state is a political body that has disintegrated to a point where basic conditions and responsibilities of a sovereign government no longer function properly. A state can also fail if the government loses its legitimacy even if it is performing its functions properly. For a stable state it is necessary for the government to enjoy both effectiveness and legitimacy. Likewise, when a nation weakens and its standard of living declines, it introduces the possibility of total governmental col

When States Fail: Causes and Consequences by Robert I. Rotberg

Africa is commonly viewed as a particular cause for concern because it is here that the phenomenon of state failure is most widespread and deeply entrenched. In the case of the British Government, this produced a spate of bureaucratic activity culminating in a report in 2005 by the Prime Minister's Strategy Unit entitled Investing in Prevention.
